BENEFIT ADMINISTRATION

Improving HR functionality and focus.

Mangrove is a nationally recognized provider of HR, payroll, and benefits administration technology and services. Thousands of companies across the United States rely on Mangrove to achieve their business goals and surpass expectations.

Payroll Outsourcing

Mangrove enables you to outsource check printing, direct deposits, tax filing and compliance reporting, and still maintain the control that a typical in-house solution provides.

Tax Filing Services

Manage the entire payroll-tax compliance process from one place. Accurate payroll tax calculations, payment files, deposits, balancing and returns are built in to the solution. Mangrove monitors, tracks, and automatically uploads all federal, state and local tax updates, ensuring that organizations stay in compliance.

Business Intelligence

Employees, administrators, and executives all benefit from the improved productivity and informed decision making derived from proper access to HR data. Retrieve key performance indicators, prints graphs and charts, identify workforce analytics and access business intelligence tools, easily delivering the exact data you need quickly and efficiently.

Time & Attendance

Mangrove offers fully integrated time management capabilities for organizations of every size. Track employees from various locations, departments and jobs. Our web-based timekeeping includes time tracking and attendance management with optional self-service timesheets. Through integration with popular scheduling and time punch tools, complete scheduling capabilities and time punch systems of just about every kind are supported.

Self Service

Through a secure workforce portal, managers gain faster access to the data they need to speed decision making, track task completion, and respond to employee requests. Employees can review earnings and tax information and stay on top of company news and policies. Whether they're in the office or working remotely, users have access to the information they need.
